

## **Regulations ... or Just a Licence to Torture ??**

---

# **ESCAS**

---

## **Export Supply Chain Assurance System**

---

Only the Australian Government could address an animal welfare issue without actually mentioning animals in the solution. Only the Australian Government would use the word 'assurance' when they are completely incapable of assuring anything. Only the Australian Government could respond to public demands for an industry to be banned with regulations to assure its future growth ... and Only the Australian Government could even stuff that up. Impressive !!

---

## **ESCAS Can't Protect Animals OR Politicians !!**
